TAP PROJECT

GO WITHOUT YOUR PHONE TO HELP GIVE CLEAN WATER

You can help some of the 768 million people around the world without access to clean drinking water by doing nothing. UNICEF has an app that helps you donate clean water to people who need it simply by NOT using your smart phone.

You just go to www.uniceftaproject.org and follow the instructions. The app runs on your phone from the website, put your phone down, and the longer you leave it down, the more water gets donated. That easy.

GreaterGood

USE THE INTERNET TO HELP TEN CAUSES EVERY DAY

Start at www.greatergood.com, and click once a day on the click button on each tab: Greater Good, the Hunger Site, the Breast Cancer Site, the Animal Rescue Site, the Veterans Site, the Autism Site, the Alzheimer's Site, the Diabetes Site, the Literacy Site, and the Rainforest Site. The site registers your PC so that you can only click once a day but click from work and click from home.

Click on the Hunger Site and food gets donated. Click on the Breast Cancer Site and women get free mammograms. You can help children learn to read. You can help veterans readjust to civilian life. Help every day for free and imagine over a year how much you've helped without spending any money or going out of your way. Imagine how much Premier can help if everyone in the company clicks every day...
